MALIK NAIRI

SOFTWARE ENGINEER

Software Development · Backend Engineering · Full Stack Development · AI-Augmented Engineering

Tunis, Tunisia · Open to relocation: Paris / Île-de-France | +216 24 637 426 | nairimalek10@gmail.com | maliknairiportfolio.vercel.app

PROFESSIONAL SUMMARY

Software Engineer with 6 years of experience designing, developing and evolving software solutions for banking, insurance and capital markets. Strong backend expertise in Java and Spring Boot, REST API development and enterprise systems integration. Experienced across the software delivery lifecycle, from technical design and implementation to production releases and operational support.

Experienced in working on complex business applications and demanding production environments, while continuously expanding frontend capabilities through Angular and TypeScript projects. Also interested in applying generative AI to software engineering practices, using AI-assisted development tools and contributing to an internal R&D initiative at VERMEG.

6 years of experience · **30+** REST APIs · **50+** releases · **2** major production deployment operations · **200+** tickets resolved

PROFESSIONAL EXPERIENCE

Software Engineer — Backend & Integration

October 2020 – Present

VERMEG Tunis, Tunisia · Permanent, full-time · On-site client assignments in Paris, France

International software vendor serving the banking, insurance and capital markets industries. Contributing to the design, development and evolution of business applications and integration platforms for European clients.

SOFTWARE DEVELOPMENT & APIS

- Designed and developed **30+ REST APIs** using Java 11 and Spring Boot for the subscription journeys of a leading European insurer, covering property and casualty, machinery breakdown, health and garage insurance.
- Developed integration and orchestration layers using **Apache Camel** and Enterprise Integration Patterns (EIP) to connect heterogeneous business systems.
- Contributed to a **centralised integration platform** acting as a broker between financial systems and handling critical business flows.

SYSTEMS INTEGRATION & MESSAGING

- Implemented the **FIX protocol using QuickFIX/J** and integrated Bloomberg connectivity for custody systems and external market data providers.
- Developed **asynchronous messaging flows** using JMS, ActiveMQ, RabbitMQ and AWS SQS, including Data Lake ingestion.
- Developed an **Isabel banking connector** to automate daily transaction retrieval.

PRODUCTION DELIVERY & DEVOPS

- Contributed to **50+ releases** across production applications, including feature updates and patches.
- Participated in **two major production deployment operations**, covering release preparation, Go/No-Go validation, deployment and hypercare.
- Resolved **200+ tickets** covering feature requests, defects and production incidents through troubleshooting, root-cause analysis, fixes and technical documentation.
- Worked with **AWS, Docker, Kubernetes and Argo CD**, as well as Jenkins and GitLab CI pipelines and Maven / Nexus artefact management.

AI-AUGMENTED ENGINEERING & R&D

- Use **Cursor, GitHub Copilot and Claude** in day-to-day engineering activities, including codebase exploration, incident analysis, implementation, refactoring and documentation.
- Contributed to an **internal R&D initiative at VERMEG** exploring the integration of generative AI into integration platforms, including use-case exploration and the development of an assistant powered by the Claude API.

COLLABORATION

- Collaborated with **international, cross-functional teams** across business, QA and infrastructure, as well as European clients.
- Supported, **mentored and onboarded** junior developers.

TECHNICAL PROJECTS

AI-Augmented Integration Platform
Internal R&D — VERMEG

Contributing to an enterprise-inspired integration platform enhanced with an **AI assistant powered by the Claude API (Anthropic)**, designed to support integration-flow design and monitoring. Exploring route monitoring with CamelBee and recent Apache Camel versions.

Java · Apache Camel 4 · CamelBee · Claude API

Reusable Skills and Workflows for AI Agents
Personal experimentation

Creating **reusable AI agent skills** through specialised instructions and agentic workflows to support engineering tasks such as code analysis, documentation and development assistance.

Claude · Cursor · GitHub Copilot · Prompt engineering

Banking ETL Proof of Concept
VERMEG

Developed an ETL proof of concept for a banking team, covering data mapping and transformation for **more than 100,000 records per day**. Presented the solution to product teams and contributed to its deployment.

Pentaho · SQL · Java

TECHNICAL SKILLS

Backend & Software Development — Java 11 (Oracle OCP certified), Spring Boot, Spring Framework, Hibernate, REST APIs, microservices, Maven

Frontend — Angular, TypeScript, JavaScript, HTML5, CSS3 — hands-on practice through learning projects and personal experimentation

Integration & Distributed Systems — Apache Camel, Enterprise Integration Patterns, JMS, ActiveMQ, RabbitMQ, AWS SQS, QuickFIX/J, FIX protocol, Bloomberg

AI & Development Practices — Cursor, GitHub Copilot, Claude, Claude API, AI agent skills, agentic workflows, prompt engineering, generative AI

Cloud, DevOps & Tools — AWS, Docker, Kubernetes, Argo CD, Jenkins, GitLab CI/CD, Nexus, Git, Linux, Shell

Data & Databases — Oracle, PostgreSQL, MySQL, SQL, Pentaho, BigQuery, Dataflow, Power BI

Business Domains & Methods — Property and casualty insurance, health insurance, custody, market data, collateral management, Scrum

EDUCATION

Engineering Degree in Software Engineering
2020 – 2024

ESPRIT — Private Higher School of Engineering and Technology, Tunis, Tunisia

Completed part-time (evening classes) while working full-time at VERMEG

Bachelor's Degree in Telecommunications & Network Security
2017 – 2020

ISET'Com — Higher Institute of Technological Studies in Telecommunications, Tunis, Tunisia

CERTIFICATIONS

- Oracle Certified Professional, Java SE 11 Developer (1Z0-819) — Oracle · 2024
- Professional Scrum Master I (PSM I) — Scrum.org · 2026
- Oracle Database@AWS Certified Architect Professional (1Z0-1146) — Oracle · 2024
- Oracle Cloud Infrastructure 2025 Generative AI Professional (1Z0-1127-25) — Oracle · 2025
- Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25) — Oracle · 2025
- ETL Processing on Google Cloud using Dataflow & BigQuery — Google Cloud · 2025
- TOEIC — C1 level — ETS · 2025
